Yorkshire Water is investing money into reducing Storm Spills, a certain percentage is allowed, Mappleton has been identified as having an aged Sewage System.

The system at the moment is combined, meaning that surface water follows the same path as the sewage.

The upgraded system will pick up all of the surface water Gullies in Mappleton and pipe them to the Clean Sewage Outfall which will discharge clean water down the cliff and into the sea.

Paul has his operations site set up on the cleared Maple Garage area, he thought it is the best one he has ever had. There are a lot of materials and plant stored on the site already.

Paul is updating the notice board with a weekly progress report, to keep the residents informed of what is going on.

There will be a temporary traffic management system from the 1<sup>st</sup> of October 2024, when work will start on the road. The scheme will be complete by February/March 2025.

Cliff Lane will not be closed, there will be access to all private drives at all times.

The Hall can be sold, the problems are, that there is no bank account and no definite organisation that the monies could go to.

The Parishioner has never approached or attended meetings of the Parish Council to put the points of view across.

After a lengthy discussion the Mappleton Parish Council agreed that no more double yellow lines are needed in Mappleton, as they already have the maximum amount possible.

**Silhouette Servicemen Memorial D-day 80:** Cllr Shawn Mars suggested that some of the silhouette servicemen be positioned on the walls of the bus stops at Cowden and Mappleton, 2 on each with a light background possibly painted to enhance the appearance and make them stand out.

It was agreed that the Silhouette's would have to be tried in position to see what is the best idea.

A site at Rolston on the grass verge was mentioned, this would need permission from ERYC.

**Parishioner's questions:** Nothing

There are also very deep potholes on the lane that runs from Little Hatfield to Sigglesthorpe near to the junction of the lane that leads to Arnold.
